

I am writing to you to request that you kindly reject the NAB's petition 04-160 as I understand that, if passed, this petition will prohibit me from receiving local news and weather updates via my XM radio. As I use my XM radio when I travel, local news and weather is important to me and I am not always able to find a local radio station broadcasting this information when I need it. Thank you for your time and consideration in this matter.

Sincerely,

Sean Koonz
